Dear Colleague,

We hope this email finds you well. We are writing to kindly request your comments on a paper that was recent Computer and Energy Technologies (ICECET) which will take place in Rome, ITALY on 06-09 July 2026.

www.icecet.com

We would be honored if you could serve as a reviewer and provide your comments on the paper at your earliest methodology, results, organization, clarity, technical soundness, and any strengths or weaknesses you identify.

Please send your comments no later than 12 March 2026. Your timely feedback will greatly contribute to the process.

Thank you very much for your valuable time and contribution to ICECET 2026.

Title:
Early Anomaly Detection in Second-Life Battery Modules via Contextual-Temporal Local Outlier Factor (CT-LOF)

Abstract:
Second-life lithium-ion batteries in stationary energy storage require screening and monitoring capable of detecting identical operating stimuli, typically with limited ground truth. This paper presents CT-LOF an unsupervised, contextual-temporal embedding from voltage level, incremental variation, and local dispersion, then applies contextual score deviations via Local Outlier Factor in a low-dimensional space. A non-parametric decision threshold is length temporal confirmation to reduce transient activations. We evaluate two derivative options (raw vs. smoothed to raw voltage. On the Oxford multi-cell validation (8 cells, 1~s sampling), CT-LOF reduces nominal false activation substantially improves detection delay (median 11~s vs 148~s), while improving ranking quality (median AP 0.4 normalization and quantile-calibrated decision semantics provide a practical, label-free, and computationally efficient framework.

Here is the paper template: http://www.icecet.com/ICECET2026_template.docx

*** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to submit your comments.

*** If you are not able to see the paper, please inform us so that we can send you the submission files ***

The conference chair will send you a reviewer certificate for your valuable contribution to ICECET'26.

We eagerly await your comments and feedback.

Best regards,
