

Exhibit M-1

IEEE History and Organization Information

IEEE's roots reach back to the 19th century. Scientists and engineers had harnessed electrical power; connected the world via transatlantic telegraph; and built ringing telephones and lights with switches. Electricity was gaining global influence. In the spring of 1884, a group of industry professionals met in New York, USA. They agreed on a goal: They would use their knowledge and influence to benefit humanity.

The Meaning of IEEE

IEEE—pronounced triple E—is the Institute of Electrical and Electronics Engineers. It formed in 1963, when the American Institute of Electrical Engineers (AIEE) merged with the Institute of Radio Engineers (IRE). IEEE's members are engineers and technologists from around the world.

A Journey of Innovation

1884: A Technical Society Formed

The American Institute of Electrical Engineers (AIEE) met in October in Philadelphia, PA, USA. Western Union's president, Norvin Green, was the Institute's first president, representing the telegraph industry. Charter member Thomas Alva Edison, of the lighting industry, served as a vice president.

IEEE Bylaw I-104.3 - Senior Member Grade Requirements

Requirements for IEEE Senior Member Grade

IEEE Bylaw 1-104.3 sets forth the criteria for elevation to Senior Member grade as follows:

- A candidate shall be an engineer, scientist, educator, technical executive or originator in IEEE-designated fields.
- Candidates shall have been in professional practice for at least ten years.
- Candidates shall have shown significant performance over a period of at least five of those years.

In addition, candidates for Senior Member grade must supply three references from current IEEE members holding the grade of Fellow, Senior Member, or Honorary Member.

[Review example cases below](#)

IEEE-designated fields

- Engineering
- Computer sciences and information technology
- Physical sciences
- Biological and medical sciences
- Mathematics
- Technical communications, education, management, law and policy

Ten years of professional experience

The ad hoc Admission and Advancement (AAA) Review Panel, that is evaluating your application, will count the years you have been in professional practice.

Time working and attending school at the same time will be counted either as work experience OR education experience.

Your educational experience is credited toward that time as follows:

- Three years if you hold a baccalaureate degree or equivalent in an IEEE-designated field

or

- Four years if you hold a master's degree or equivalent in an IEEE-designated field

or

- Five years if you hold a doctorate or equivalent in an IEEE-designated field

Please note, the maximum number of years for education that may be counted toward professional experience is five years.

Five years of significant performance

Many prospective applicants make the mistake of assuming that "significant performance" requires special awards, patents, or other extremely sophisticated technical accomplishments, but this is not the case. Substantial job responsibilities such as team leader, task supervisor, engineer in charge of a program or project, engineer or scientist performing research with some measure of success (papers), or faculty developing and teaching courses with research and publications, all are indications of significant performance. The following are also indications of significant performance:

- Substantial engineering responsibility or achievement.
- Publication of engineering or scientific papers, books, or inventions.
- Technical direction, or management of important scientific or engineering work, with evidence of accomplishment.
- Recognized contributions to the welfare of the scientific or engineering profession.
- Development or furtherance of important scientific or engineering courses that fall within the IEEE designated fields of interest.
- Contributions equivalent to those of the above in such areas as technical editing, patent prosecution, or patent law, provided these contributions serve to advance progress substantially in IEEE designated fields.

Significant performance that would serve to qualify an individual for elevation to Senior member need not have occurred in the years immediately prior to the application. Thus, Life and Retired members are eligible for elevation.

References

The applicant must also provide three references from current IEEE members holding Senior Member, Fellow, or Honorary Member grade. Your professional colleagues are your best source of these references. If you have difficulty in locating Senior members or Fellows to serve as references, you have **three options**.

PLEASE NOTE: It is the responsibility of the applicant to follow up with their references regarding the completion of the reference form.

Option 1

Follow these simple steps to search for qualifying members using IEEE Collaborate.

1. [Sign in to Collaborate](#).
2. Enter your username and password.
3. On the top of Collaborate, click on "People."
4. Under the "IEEE Membership Directory" on the left-hand side, use "Member Status" to filter "Senior Member," "Life Senior," "Fellow," and "Life Fellow."
5. Use the remaining Filters on the left-hand side to narrow your search as you please.
6. Click on any of the profiles listed that you wish to message.
7. Click the "Message" tab to message the member.

Option 2

Contact the Section or Chapter chair for assistance in finding qualified references. More information about your Section chair can be found under the "References" tab of your application.

The applicant is responsible for contacting your Region/Section Chair. Tell them you are applying for Senior membership and require three references. Your Section Chair may ask you a few questions and ask to see your resume. You will need names and membership numbers that will be entered into the reference tab of the application process.

If you are working with your Society or Region, they may offer to endorse (be a nominator) on your application. IEEE Sections/Societies can receive a rebate of \$10 for each successful nomination as part of the Nominate a Senior Member Initiative. If they wish to serve as a nominator they should begin the application process for you and then the applicant will finish the remaining tabs of the application.

Please note: If you have a nominator, they serve as a reference as well; therefore, you will only require two additional references.

Option 3

Attend Section meetings and network with Senior members and Fellows in your area.

Examples

The following are examples of significant performance that would serve to qualify an individual for elevation to Senior member. In each case, assume that three qualified references were provided.

Case 1 An applicant/nominee has a bachelor's degree and seven additional years of professional experience beyond graduation in an area encompassed by one of IEEE's technical Societies, which meets the requirement of ten years of professional experience. Significant performance can be demonstrated by describing substantial job responsibilities (e.g., team leader) for a period of at least five years. Result: All criteria are satisfied and the application is approved.

Case 2 Same as Case 1, except that the applicant/nominee worked in industry for one year following graduation with the bachelor's degree and then was a full-time graduate student for two years, obtaining a master's degree. The applicant demonstrates significant performance during another five years in industry. Result: Approved.

Case 3 An applicant/nominee has bachelor, master's, and doctoral degrees in an IEEE-designated field. Five years of significant performance in academia, industry, or government beyond the doctoral degree are demonstrated (e.g., a faculty member with five years beyond the doctorate and promotion to associate professor). Result: Approved.

Case 4 An applicant/nominee has no degree and has worked for many years in the electric industry as a technician. Ten years ago, the applicant/nominee accepted an engineering level position and continued with it since that time. Included was a period of at least five years with demonstrated significant performance. Result: Approved.

Case 5 An applicant/nominee retired some years ago and has not been active recently in the profession. Prior to retirement, the applicant/nominee had at least ten years of professional experience, including five years of significant performance. Result: Approved.

Vivek Mishra (11/28/2024 02:01 PM)

Hi Team,

I hope this email finds you well. I am writing to kindly inquire about the status of my application for IEEE Senior Membership.

I understand that the evaluation process may take some time, and I truly appreciate the effort the team puts into carefully reviewing each application. If any additional information or documentation is required to assist in the process, please do let me know.

My member number: 100495418

Thank you for your time and support. I look forward to hearing from you.

Best regards,
Vivek.

IEEE Senior Member Reference Letters and Vouchers

23 November 2024

Dear Vivek Mishra :

It is a great pleasure to congratulate you on your elevation to the grade of IEEE Senior Member. Only 10% of IEEE's more than 450,000 members hold this grade, which requires extensive experience, and reflects professional maturity and documented achievements of significance.

As a token of appreciation, IEEE is pleased to offer you the enclosed opportunity, good for a new one-year membership in an IEEE Society. Along with that, you have four discount referral certificates you can pass along to invite other prospective members and notify them of your achievement.

If you wish, I would be delighted to write to your employer, notifying them of your elevation to this high grade of membership. To have this letter prepared and sent, please complete the online form at: <http://www.ieee.org/smnotify>.

Congratulations on this significant milestone and thank you for your contributions to the profession and to IEEE.

Sincerely,

Thomas M. Coughlin
2024 IEEE President and CEO

Encl.

Congratulations! Choose Your Complimentary Society

In recognition of your elevation to Senior Member grade, IEEE would like to offer you the opportunity to join **one new** Society. To view available Society Memberships, please visit:
www.ieee.org/go/societyvalue.

To redeem this offer, please email this form as a PDF to:
senior-member@ieee.org

Or, print and mail it to:
IEEE, Member Operations, 445 Hoes Lane, Piscataway, NJ 08854

Name (required): Vivek Mishra

Member # (required): 100495418

Society Name: _____ **Expiration Date:** 28-Feb-2025

*****This offer is non-transferable, has no cash value, cannot be used online, cannot be used for a refund on an existing society, and cannot be used toward a Society Membership you held in 2024*****

MGA-SrMemberElevation-2024 022024

How to Redeem this Free Society Opportunity Electronically:

- 1: Save this Document
- 2: Complete the Form above with the Society Membership you wish to join
- 3: Save the completed form as a **PDF** (some other formats cannot be opened)
- 4: Email Senior-member@ieee.org and include the PDF attachment.

PLEASE NOTE: WE CANNOT PROCESS YOUR REQUEST WITHOUT THE COMPLETED FORM. TYPED REQUESTS IN THE BODY OF THE EMAIL ARE UNABLE TO BE ACCEPTED.

IMPORTANT: PLEASE DO NOT PURCHASE THE SOCIETY PRIOR TO SUBMITTING THE FORM. REFUNDS ARE UNABLE TO BE MADE WITH THIS FORM. A NEW SOCIETY WILL NEED TO BE CHOSEN INSTEAD.

Recently I was elevated to the status of Senior Member of IEEE. Having achieved this distinction, I am reminded of others who have helped me professionally. Please accept this certificate toward IEEE membership with my compliments. I hope it will enhance your career as it has mine.

To receive this special discount enter promotion code **MGASMREF** when you join online at **www.ieee.org/join**

What to do with your Gift Certificate:

1. This certificate entitles you to a **US\$25 discount off traditional IEEE Membership dues for the first year. Offer does not apply to Society memberships or existing IEEE Membership renewals.**
2. Offer only applies to first time, professional members. Student memberships are not eligible for this offer.
3. Enter the member number (see top of certificate) of the Senior Member who referred you in the Referring Member Number field on the application.
4. Enter in the promotion code **MGASMREF** in the Promotion Code box at checkout.
5. Cannot be combined with other incentives or offers, including Special Circumstance discounts.
